Do We Really Have to Talk about THAT?!
A Workshop for Parents on Sexuality and their
Sons and Daughters with Developmental
Disabilities

Talking about sex with your children can be very difficult, especially when your son or daughter has a developmental disability. What does he or she really need to know? How can you talk about it in a way that is understood? Is this even your job as a parent? This workshop will provide a foundation for understanding that everyone is a sexual person with needs for sexual education and opportunities to build healthy sexual self esteem. Parents will be introduced to the tools they need to start the conversation and resources to help them continue to talk as their children grow.

Guest Speaker: Carol M. Britton, MSW
Training & Consultation Specialist, The Boggs Center / UMDNJ
